

DO-LITE™

Quick Protection for Interior Environments

The **DO-Lite** series is recommended for customers who need to protect cables in an office, movie studio, theater or other interior environments. The **DO-Lite** series offers “drop and go” installations. Just drop them over the cables you want to cover, connect them and the installation is complete.

Covers Any Length of Cable

- Models are 33” or 35” long
- Connect together to form a cable protection system as long or short as needed

Built for Foot Traffic

- Light weight design – 4 to 10 lbs.
- Proprietary Hour Glass™ connectors hold light weight cable protectors snugly together

Protects and Organizes

- Protects valuable cables, lines, hoses and connectors from wear and tear
- Organizes hoses, lines and cables

Safety Features

DO-Lite cable protectors, while designed to protect cables, also offer these safety features:

- Encloses cables – no loose cables, lines or hoses
- Diamond plate slip resistant surface for excellent traction
- Low angle ramps provide easy access for carts and pedestrians

Excellent Durability

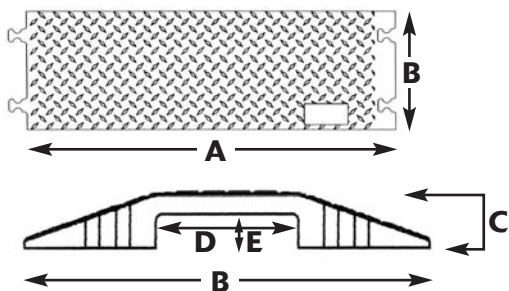

Made from Yellow Jacket, Inc.’s proprietary Durathane™ cast molded polyurethane.

- Same material used in extra heavy duty Yellow Jacket® Classic cable protectors
- Proven in over 20 years of use

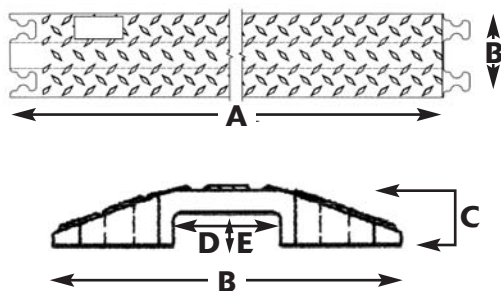

DO-Lite cable protectors work best on flat even surfaces.

Drawings are representational and are not necessarily to scale.
