

ANTI-THEFT PC SECURITY STAND

An all-in-one security station for small form factor PC's and an LCD monitor.

Kendall Howard's Anti-theft PC Security Stand is the perfect solution for educational and corporate organizations who need to keep their PC hardware safe from theft and general damage.

- A strong, single unit designed to secure both a small form factor PC and a flat panel monitor in a small desktop footprint
- Ability to tilt LCD monitor up 15 degrees or down 30 degrees depending on monitor
- Designed for stability, security, and a professional look
- Support bracket allows for full ventilation
- Specially keyed or standard hardware can be used to secure the base unit to the desktop
- Fits 14" - 22" widescreen monitors with standard VESA mounting points
- Fits small form factor PC's:
 - 10-1/2" - 15" (266-381mm) wide
 - 11" - 18" (279-420mm) deep
 - 4" (103mm) high
- Specially keyed security hardware is also included to prevent theft, tampering and unauthorized internal access (optional Security Key is not included)

Part# DS-100 Anti Theft PC Security Stand
