

### Tech Gadgets for Travelers

The Power Station Traveller, available for \$32.99 from CableOrganizer.com, can charge up to three small portable devices simultaneously. The multi-gadget charger ensures cell phones, iPods and electronic games are fully functional.

CableOrganizer.com also markets the PowerSquid, which comes in handy in places where the power source may not be protected. The small surge protector (\$13.99) ensures that computers, telephones and other items are protected from electrical surges.

The company's other products include a universal AC/DC power adaptor, a cord-control device with retractable cables and crushproof, waterproof micro cases for protecting cell phones, PDAs, pagers and other gadgets.
