

Ear bud cord under wraps

The Cableyo POP can help you wrap up loose ends, at least when it comes to the cords on your ear buds. Available in white or black, the itty-bitty cord winder comes with a suction cup that can be attached to an MP3 player, cell phone or most any other gadget.

Or you can attach it to a belt, a pocket or a backpack with the included clip. The cord winder costs \$10.
