**CableOrganizer.com adds Thirty-three  
New Cable, Wire and Equipment Management Solutions to Award-Winning  
Online Catalog**

*Company launches "Office Clutter Personality" Survey to Gauge How Your Workspace Affects Your Life*

**FORT LAUDERDALE, FL, August 14, 2007** – Award-winning CableOrganizer.com, among the world's leading purveyors of cable, wire and equipment management-related products for use in business and at home, today announced it has once again increased the inventory in its industry leading online catalog located at <http://CableOrganizer.com>. These product additions further bolster the company's position as the industry's leading online vendor, also underscoring the market need for one-stop access to such a collective and comprehensive product offering.

According to CableOrganizer.com co-founder and COO, Paul Holstein, "This has been another record-setting year for us in terms of overall company product-line and revenue growth, and the industry recognition we've received of late has been gratifying for our entire team. We are proud to have built a solid business model based on delivering quality goods at a fair price with exceptional customer service."

The company is also currently conducting a brief 10-question "Office Clutter Personality" survey to gauge how professionals rate the state of their own workspace, and the extent to which a messy, unorganized workspace affects one's mood, attitude and productivity. The survey is accessible to the general public online at <http://www.zoomerang.com/survey.zqi?p=WEB226S75AMRN4>.
