MADE IN USA

DO-Max™ cable protectors are versatile enough to be used anywhere from an office or convention center where foot traffic would be constant, to large outdoor events and other exterior environments where vehicular traffic may be present. The DO-Max offers “drop and go” installation. Just drop them over the cables you want to cover, connect them, and the installation is complete.

Covers Any Length of Cable

- Each unit is 36” long
- Connect together to form a cable protection system as long as needed

Handles Pedestrian and Vehicular Traffic

- Built to withstand loads from cars and trucks
- Light weight design – 10 lbs.
- Low profile design to ensure safe crossing

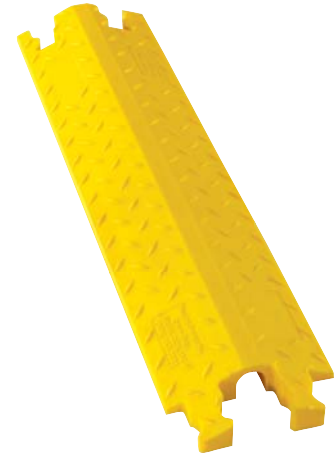

Protects and Organizes

- Protects valuable cables, lines, hoses and connectors from wear and tear
- Organizes cables, lines and hoses up to 1.50” in diameter

Safety Features

DO-Max cable protectors, while designed to protect cables, also offer these safety features:

- Encloses cables, lines and hoses
- Diamond-tread, slip resistant surface for excellent traction
- Low angle ramps to provide easy access

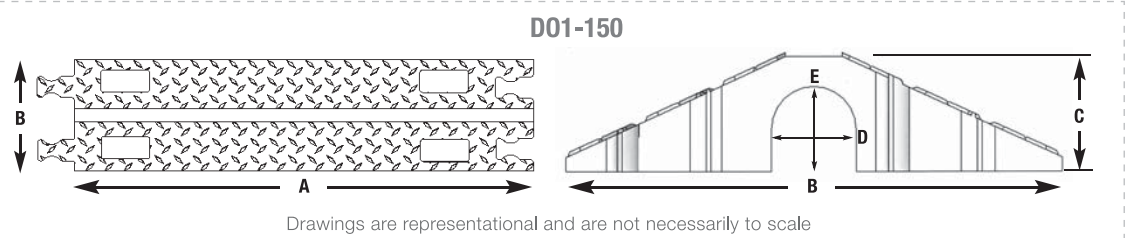

Excellent Durability

Made from Yellow Jacket®, Inc.'s proprietary Durathane® cast molded polyurethane

- Same material used in extra heavy duty Yellow Jacket® Classic cable protectors
- Proven in over 25 years of continual use

MADE IN USA

DO-Max™ cable protectors are designed without a base plate so they will readily cover and protect permanently installed cables, lines and hoses. The DO-Max series offers “drop and go” installations. Just drop them over the cables you want to cover, connect them together and the installation is complete.

Superior Handling of Vehicular Traffic

Vehicular traffic produces the greatest impact on a cable protector's leading edges and its ramps. DO-Max cable protectors are able to absorb significantly more impact from vehicles because of their ramps which have:

- 1 1/4" leading edge
- Extra strong “brace beam” construction

Excellent Durability

Made from Yellow Jacket, Inc.'s proprietary Durathane® cast molded polyurethane

- Same material used in extra heavy duty Yellow Jacket® Classic cable protectors
- Proven in over 25 years of continual use

Protects Permanently Installed Cables

- No base plate – just drops over cables, lines and hoses
- Protects from vehicular and foot traffic

Uses Original dog bone* Connector

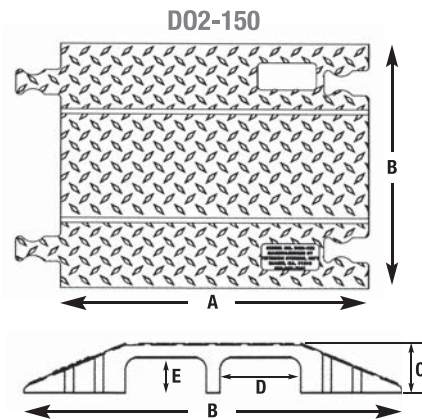

- Provides quick assembly and disassembly
- Resists breaking under pressure

Safety Features

- Encloses cables – no loose cables, lines or hoses
- Diamond plate slip resistant surface for excellent traction
- Low angle ramps provide easy access for carts and other vehicles

DO2-150 under forklift truck
